

## TO CO-ORDINATE WOMEN'S WORK

This is Purpose of Meeting to be  
Held Next Saturday by Coun-  
ty Council of Defense

### 12 CHAIRMAN TO BE NAMED

Plan Adopted so Women's Work  
May be Equally Divided Among  
Deserving Activities

The nation-wide movement to place all women's war activities indirectly under the leadership of the woman member of the County Council of Defense is to be taken up in Rush county soon. A meeting for this purpose will be held at 2 o'clock on Saturday of next week in the director's room of the People's National Bank when twelve chairmen of the twelve departments of war work will be appointed by a committee composed of women from every township in the county and working under the County Council of Defense.

This efficient method has been taken up by the leading women's organizations of the country in order that women's work may be equally divided between the deserving war activities.

The new system in no way curtails the work of the women of these organizations or do they lose their identity by working under the Council of Defense. The Woman's Committee of the Council of Defense is recognized as the official government agency through which all women's organizations may work out their programs and not repeat one another's accomplishments.

Five of the largest national organizations of women have asked their state presidents to get indirect relationship with the Chairman of the Woman's Council of the Council of Defense in their respective state, the state committees bringing it down to the county committees and the county committees bringing it to the township committees.

These five organizations are: National League for Women's Service, with Maude Wetmore as chairman; National Council of Women, with Mrs. Philip N. Moore as president; General Federation of Clubs, with Mrs. Josiah Evans Cowles as president; National Woman's Suffrage association, with Carrie Chapman Catt as president; National Society of Colonial Dames, with Mrs. Joseph R. Lamar as president.

Mrs. Anne Studebaker Carlyle of South Bend is the woman member of the Indiana Council of Defense. She has mapped out a war program which each county council is to carry out through its woman member. Twelve departments of work have been agreed upon so far and Mrs. Carlyle has asked the woman member of the council in each of the 92 counties in Indiana to name a chairman for each department within the next few weeks.

It happened that a woman's committee of war activities was named in Rush county before the County Council came into being. This committee was afterwards enlarged and taken over by the County Council of Defense and made a part of that council. As matters stand in this county, this committee is to have a voice in the selection of these chairmen and with that end in view a meeting of this committee is called for Saturday of next week.

The committee is composed of the following women: Mrs. Roland H. Hill of Ripley township, Mrs. Bert Benner of Center township, Mrs. Ed Aiken of Washington township, Mrs. Elmer Hutchinson of Posey township, Mrs. O. M. Siler of Jackson township, Mrs. Marcus Kendall of Union township, Mrs. A. P. Wellman of Noble township, Mrs. William M. Sparks of Rushville township, Mrs. Jesse Shelton of Walker township, Mrs. Wilbur Brown of Orange township, Mrs. Charles T.

## UNDECIDED ABOUT ORDER

Fuel Administrator Doesn't Know  
Whether Last One Was Accepted

S. L. Trabue, county fuel administrator, was undecided today how much coal he would order for Rush county Monday for the reason that he had not yet been notified whether he would receive the ten cars ordered last Monday. The state fuel administration always sends the county administrator word whether his orders are accepted. In cases where they are not, he puts in the same order the following week. Of the ten cars ordered last Monday, six were for Rushville.

## CARL WEBB RETIRES FROM PEOPLES BANK

Becomes Cashier of Morristown  
Bank Today After 14 Years  
of Service in Rushville

### GLEN FOSTER SUCCEEDS HIM

Mr. Foster has been with the local institution since October 28, 1912.

Mr. Webb accepted the position with the Morristown bank on Tuesday, November 6 and made arrangements to assume his new duties today. Announcement of the change was withheld until today. Mr. Webb became identified with the Peoples National bank October 15, 1903, rounding out his fourteenth year with the institution a month and a half ago.

Charles Williams, for many years cashier of the Morristown bank, resigned some time ago and Mr. Webb was employed to take his place. Paul Williams of Morristown, son of the former cashier, who was assistant cashier of the Morristown bank, has been acting cashier pending the arrival of Mr. Webb.

## AN ENROLLMENT AGENT IS NAMED

A. L. Stewart Appointed on Recom-  
mendation of the County Coun-  
cil of Defense

### ALL TYPES SERVICE NEEDED

His Duties Are to Enroll All Adult  
Men Who For Patriotic Rea-  
sons are Willing to Work

A. L. Stewart has been made head enrollment agent of the United States Public Service Reserve in this county, through the recommendation of the County Council of Defense. Mr. Stewart will begin his duties in two or three weeks, just as soon as an office can be opened and the necessary supplies are received for the purpose of enrollment. The duties of the head enrollment agent and the purpose of the reserve is as follows:

First: To enroll as members of the reserve all classes of adult men, who, for patriotic reasons, are willing to accept employment, engage in additional employment or change from their present occupation to other employment, which would be of more importance to the national welfare; men who are now employed in work which is not of vital importance to the national welfare; also men who are only partially employed and whose financial condition makes it unnecessary for them to earn a livelihood. His duties are further to present to members of the reserve for employment which are vital to the national welfare and in exceptional cases where men are financially able to make them be of service to the national welfare, and in certain cases their services will probably be without compensation.

All types of service are needed. It is desired that all men who are able to give service in any capacity, should enroll, scientific and professional men, mechanical, electrical, civil, sanitary, chemical and all other engineers, executives, administrators, superintendents and foremen, draftsmen, mechanics, accountants, clerks, estimators, agriculturists, laborers and all others should enroll.

All parties enrolling will be furnished an application form and when the application form is filled out it will be necessary to see that it is complete in every respect. It is also desirable that each person enrolling shall make a voluntary contribution of twenty-five cents and he will be issued a receipt therefor. This money will be for the purpose of furnishing the party registering a reserve button and to defray the costs of supplies, clerical help and etc., incident to the administration of the reserve in Washington. The contribution is voluntary and may be waived by any person enrolling.

It is stated emphatically that a man who does not need to earn a living can't make it a valid excuse for not working at this time, and it is also to be made clear that consuming time without real productive results, is not work and that the nation is in need of productive workers. It is also understood that the work throughout the country will often be hard and perhaps of a humble sort, but the productive work of the country must be increased if our soldiers are to be adequately supplied with the necessities of warfare.

It is also understood that all of this work in the enrollment of the adult men of the county is to be done free and without compensation, and for that reason each and every one is urged to be patriotic enough to search out the enrolling agent for his district without the enrolling agent being compelled to go to him.

The infant child of Mr. and Mrs. Joe Moran which was born this morning died one hour after its birth.

## MAKES IT EASY TO BE A BOND HOLDER

Government Starts Thrift Plan  
Monday to Get Savings of  
Small Investors

### AN OUTLINE OF THE SCHEME

War Savings Certificates Are Is-  
sued, Bearing 4 Per Cent Com-  
pound Interest

Beginning on Monday, one can open the way to become a "bloated bondholder" by the investment of but twenty-five cents.

This is because of the Thrift Stamp plan which Uncle Sam is putting in effect through the post-offices throughout the country. The stamps have been received at the local postoffice where everything is in readiness for the execution of the new savings plan which has been instituted for two reasons; that the government may be using the money and in order that those who could not afford to purchase Liberty Loan bonds can buy bonds in this way.

The plan is very simple. A war thrift stamp can be purchased for twenty-five cents. With it is given a card, non-transferable, on which is written the name and address of the owner. Just as frequently as the owner wishes he may purchase the twenty-five cent stamps and have them stuck on the card. When the card is filled with sixteen stamps, or four dollars in savings, it may be presented with twelve cents to the postoffice where a war-savings certificate bearing four per cent interest that is compounded quarterly is issued. In other words it is a five dollar government bond. It is even more profitable than a Liberty Bond inasmuch as the interest is compounded on the one and not on the other. The thrift certificates are payable in 1923 or at any postoffice at any time with accrued interest up to the hour of demand.

Or, the war saving certificates may be brought in another way. One can purchase a \$4.12 war certificate or as many of them up to this ratio as he desire up to one hundred dollars worth. He can not buy more than one hundred dollars worth at one time or own more than one thousand dollars worth at one time. During the months of December 1917 and January 1918, the price of the certificates shall be \$4.12 and one cent shall be added every month thereafter during the calendar year of 1918. Thus the sum necessary to add to a card filled with 16 thrift stamps to obtain a certificate in December 1918, will be 23 cents. Rural and city carriers will sell the stamps and be supplied by the postmaster.

The government in this way is giving every man, woman and child in the country an opportunity to aid in financing the war. It is proposed to sell during the calendar year 1918 the amount of \$2,000,000,000 of these bonds par value.

## BOY SHOT WHILE HUNTING

Carl Hewitt Accidentally Hurt by  
Playmate, Blount Hungerford

Carl Hewitt, the 15-year-old son of Mr. and Mrs. F. M. Hewitt of the Big Flatrock neighborhood in Orange township, was accidentally shot below the knee on Thursday by Blount Hungerford the 13-year-old son of Mr. and Mrs. Elbert Hungerford with whom he was hunting. The Hungerford boy was endeavoring to unload his gun, a 22 rifle, and in some manner it went off, the shot going into young Hewitt's leg immediately below the knee. The injuries incurred by the accident have been very painful although they are not considered serious.

Mrs. A. B. Norris of Carthage went to Indianapolis this morning.

## OSBORNE ASKS DIVORCE

Tailor Brings Suit Against Ella Os-  
borne This Afternoon

Elvie M. Osborne, tailor, this afternoon filed suit in circuit court for a divorce from Ella Osborne, alleging cruel and inhuman treatment. They were married Oct. 14, 1889 and separated the last time in October, 1916, having been separated at times previous to that, according to the complaint. Mr. Osborne alleges his wife falsely accused him of a number of things of which he says he was not guilty. Four children were born to Mr. and Mrs. Osborne.

## BERLIN CLAIMS GAINS AND 4,000 PRISONERS

Marshal Haig's Statement Indicates  
Fighting Referred to May Have  
Been Yesterday

### CAMBRAI BATTLE CONTINUES

Germany today claimed great gains and 4,000 prisoners in powerful thrusts against the British line around Cambrai and recapture of two villages on the southern flank. Field Marshal Haig said the enemy had not attempted to renew his attacks since last night, indicating that the fighting described by the Berlin statement may have occurred yesterday.

Dispatches from the British front detailed failure of a double blow aimed by the Germans against the Cambrai line and declared the battle was continuing on a nine-mile front.

At one time the Germans forced the British back two miles. Tanks were called into action by General Byng. As the dispatch was cabled German advance does not stand at more than 2,500 yards. They were thrown back from their furthest gains with heavy losses.

Five German divisions, about 50,000 men were thrown against the British line in the attack. These divisions centered their attack along a five-mile front. That their first day's effort failed was due to the Spartan courage of the British Tommy who contested every inch of ground.

## PROMISES TO HELP ROUMANIAN NATION

President Wilson Also Sends Mes-  
sage to Japanese, Referring to  
Count Ishii's Visit

### WATCH ROUMANIAN STRUGGLE

(By United Press.)

Washington, Dec. 1.—To encourage Roumania, now in a difficult position because of the Russian tangle, President Wilson today messaged the Roumanian premier, promising American support both at the peace table and after the war.

At the same time President Wilson sent to the Japanese government a message declaring the result of Count Ishii's visit would be "as happy and as permanent as the enduring friendship of the people of the United States and Japan."

"The people of the United States" said President Wilson, "have watched with feelings of warmest sympathy and admiration the courageous struggle of your majesty and the people of Roumania to preserve from the domination of German militarism their national integrity and freedom. The government of the United States is determined to continue to assist Russia."

## WRITES OF SAFE ARRIVAL IN FRANCE

Ray Colestock, in Rainbow Division,  
Says he Has Pleasant Trip  
Over to France

### A LETTER TO HIS MOTHER

Men Are Fed Well, he Says, But he  
is Hungry all The Time—No  
Danger Sighted on Trip

Mrs. Nora Colestock is in receipt of a letter from her son, Raymond Lee Colestock, Battery A, 150th Field Artillery, (Rainbow division) telling of his safe arrival in France and describing his trip, though many details are omitted, the censor evidently having been on the job.

The letter arrived on the day the announcement was made from Washington and the American Field Headquarters in France that the Rainbow division had arrived in France. Dispatches say they have been there for some time. The 150th regiment of field artillery is a part of the rainbow division and was formerly the 1st Indiana artillery. It was divulged today that this division embarked October 18.

Colestock enlisted in Company B of the old Fourth Indiana here and was one of the men transferred to the artillery before it became a unit in the Rainbow division. The letter follows:

Dearest Mother:  
Have arrived safe and sound and in the best of health and I sincerely hope you haven't worried yourself sick since I left. I sent you a card and hope you received it for if you didn't, I know that you imagined everything happened to me. I was on duty the night before we left so didn't have a chance to do anything much only grab my pack on the run and fall in line. I can't tell you anything much because all of our mail is censored. About all we can say now is that we are well and alive. The trip was a pleasant one. We did not have a single storm and only a few cloudy days and I wasn't sick a moment. The sea air is great and it sure gives a fellow an appetite. We have been fed well, but it seems that I am hungry all of the time. I hope you will send plenty of eats if you send me a box for Christmas. Candy, cakes and chewing gum would certainly be appreciated. If you can, make me some maple sugar and send it.

We were all happy to see land even if it was strange, for the water got to be an old thing. I don't think any dangers were sighted on our way. The time passes quickly but it seems an age since I was at home on the farm. I wish you all a happy Thanksgiving, as you may not receive this until after then. I hope to be able to send you all something Christmas, but don't know whether I will be get to or not. I don't know where I am or where I will be, but of course I would not be permitted to tell if I did know. I would hate to tell anything that would get to the enemy and give them valuable information as I am trying my best to keep within the limits and when I come back I can tell you all about it.

All of us were insured with the government just before we left. A law was passed a short time ago, requiring that all of us take out five thousand dollars insurance with the government, but the most of us took ten. It costs according to our age, mine costing 65c per thousand, or

## Land Cheap and the Most Fertile In the World

I have negotiated through Mr. J. F. Vanvorhees, to sell some of  
 his properties. Mr. Vanvorhees has options on thousands of  
 acres of the richest land in the world in Tensas Parish, Louisiana.  
 Messrs. Winship, Amos and myself have purchased a large tract  
 of this land and it has certainly proven to be a very good invest-  
 ment.

These options were secured before land advanced in price and on  
 the first and third Tuesdays of each month, I will make the trip  
 into this part of Louisiana and will be glad for anyone who is  
 interested to go along.

## PLAN TO CLOSE SCHOOLS

Fuel Administration Considers it as Coal Conservation Measure.

(By United Press.)

Washington, Dec. 1.—A plan to close all schools in northern and central states during January and February as a coal conservation measure is before the fuel administration today. The closing of schools has been merely suggested and is not imminent, it was stated, but one official in explaining the serious situation, declared there simply is not enough coal being moved to meet all requirements. The recess in January and February would be made up by an extension of the school term.

# HOOSIER KITCHEN CABINETS

Hinged Door  
"Hoosier Wonder," Advertised in leading Magazines

Although the prices of nearly everything has gone up since the war, it is a remarkable fact that the price of the famous Hoosier Beauty remains exactly the same.

It is the only kitchen cabinet we know of on the market today that has not been advanced \$2.00 or \$3.00.

The reason for this is that there are more Hoosiers made than any other five makes combined. Hoosier production is larger and buying facilities greater. With the exception of the slight rise in price of one or two of the lower priced cabinets, all prices are exactly the same as usual.

That is why it is hard for you to get Hoosier Cabinets—last spring and summer hundreds of women waited months to get the popular Hoosier models.

Whether you intend to buy now or later, come and see the labor saving cabinets.

SPECIAL LOW PRICES —\$21, \$26, \$31, and \$35.

They are sure to be higher.

FIGHT  
FOR YOUR LIFE

Duty Demands  
Robust Health

Fight to get it and keep it

Fight—fight day in and day out to prevent being overtaken by ill and ails. Keep wrinkles from marring the cheek and the body from losing its youthful appearance and buoyancy. Fight when ill-health is coming with its pallor and pains, defects and declining powers. Fight to stay fit and drive it off.

But fight intelligently. Don't fight without weapons that can win the day for without the intelligent use of effective weapons the pallor spreads and weakness grows and a seemingly strong man or woman oftentimes becomes a prey to ill after all.

You will not find this class of persons in the hypoferrin ranks. No unhealthy, dull, draggy, droopy persons in that line. It is a hale, hearty, robust aggregation of quick-steppers who view life in a joyous frame of mind and are mentally and physically equal to any emergency. Hypoferrin stands for sound body and sound mind—it is the invigorating tonic of the time—powerful and unsurpassed as a health restorer, vitalizer and health preserver. Fight to hold the vigor of a sound body with hypoferrin or to stay the process of decay and restore health and strength—you win. This tonic of amazing, wonder-working properties has been approved by physicians as a restorer and safeguard of health. It is a thoroughly scientific preparation of the very elements necessary to tone up the stomach and nerves, to build strong, vital tissue, make pure blood, firm flesh and solid, active, tireless muscles.

Hypoferrin contains these mighty strength-producing agents, leucithin and iron peptonate, in a form best adapted to benefit the body and its organs. Its ingredients are absolutely necessary to the blood. In nine cases out of ten a run-down condition, shallow, pale complexion that "all in feeling and frail bodies are due to lack of leucithin and iron peptonate in the system.

Your mental and physical strength and endurance depends upon a leucithin-and-iron peptonate laden blood, dependable nerves and a healthy stomach. With these you can meet life at any angle.

This wonder tonic, hypoferrin, which is as perfect as science can get to nature, meets every essential demand of the human organism. It is safe and sure and a boon to run-down, worn-out men and women. Hypoferrin means nature's way of bringing color to the cheeks, strength to the body and keeping the vigor and buoyancy of youth. The power and paint way of affecting beauty is not needed by hypoferrin women and girls. Their blood, filled with nature's beauty stores, creates conditions that give firmness and grace to the body and the glow of health to the cheeks.

No need of going through life sickly and always feeling miserable in this age of medical science. Join the hypoferrin ranks. It puts into you the springy snap and vigor you ought to have and puts life into your body and mind that inspires the confidence that you confront the world on an equal footing with anyone. Hypoferrin may be had at your drug store or direct from us for \$1.00 per bottle. It is well worth the price. The Santanel Remedies Co., Cincinnati, Ohio.

Teach Practical Patriotism

In seeking for an explanation for the apathy and lack of patriotism manifested in many parts of the country, one is confronted in almost every instance with the one underlying influence—ignorance. Ignorance of American ideals, traditions and principles. Ignorance of the plain duty of every citizen of a beneficent government to preserve and defend the institutions of that government.

In the schools of this country from this time on, a department of practical patriotism should have foremost place. Love of country is not all hereditary. A practical knowledge of all that our country and our government stands for in the lives of its citizens is essential to the development of the highest type of patriotic citizenship.

It is not enough that a people should have a sentimental love for the soil that bred them. Thousands of aliens within our borders; now loyal citizens of our country, have this love. It is noticeable, however, that this does not detract from their full allegiance to the government that has received and nurtured them.

There must be more than this to make up the true American type. There must be first knowledge—a full realization of the superiority of our institutions; a full appreciation of the great benefits that we as individuals have received and are continually receiving from them. Add to this a carefully cultivated sense of gratitude, and the country will be safe in the hands of its citizens.

In past years much has been said of the privileges of our land. The time has come when we must emphasize the duties of the people to the government that makes possible those great privileges.

Teachers and parents of America, it up to you.

How Teachers May Help

Teachers in the public schools of a certain city in this country have set a precedent that might be followed generally. They have unanimously agreed to contribute their services for one month of the present term free, in order to lengthen the term.

This is in a state where the public funds are not sufficient to warrant the desired length of school term, and there are many states where in the concession would not be necessary. Still the concession would be a splendid display of patriotism, even there.

The school teachers of our country stand in the most responsible position in public life. They are very close to the young and growing mind of the youth, and their attitude on any question of the hour is sure to have a profound influence in shaping the views of those under their charge. If they display the proper degree of patriotism and self-sacrifice, there will be a ready response from the young.

If every teacher in the country would decide to make a patriotic donation of a portion of his or her salary to some department of the

# The Kaiser's Secret Army In America

While American manhood takes up the challenge of the Kaiser's armed forces on the seas and fields of Europe, the very sources of its support in this country are menaced by furtive, non-uniformed armies whose weapons are spying, sabotage, bomb-planting, incendiarism, murder, and a hundred forms of insidious and demoralizing propaganda.

What are we going to do about it? The leading article in THE LITERARY DIGEST for December 1st, will give one a clear idea as to what is being done and what it is proposed to do. It presents the facts from many angles and reflects the feeling of the American people on the subject, through the editorial comments of leading publications. Various remedies are suggested—an ominous undertone being evidenced in the statement of the New York Morning Telegraph, which says, "In our judgment these outrages will continue until some spy is caught, convicted, and shot."

# Society

An informal dance followed when added to the gayety of the party given at the Social Club last evening as the first dinner-dance of the season. "The gospel of the clean plate," was practiced in the new method of serving which was instituted by the ladies of the first division and in which the guests bought only that part of the menu which they wished. A delicious chicken dinner was served. Mrs. Chauncey Dunnean and Miss Grace Buell were captains of the entertaining division.

An informal dance followed when music was provided by the Sherman orchestra of this city. Among the returned college students spending the week-end in this city and out-of-town guests who enjoyed the affair were Mrs. Swope of Kansas, Mrs. John Dickerson of Lexington, Ky., Douglas Lose of Fort Wayne, the guest of Howard Miller, Howard Miller of Milroy, Mrs. Sarah Henley and Mrs. June Ketringer of Chicago, Mrs. Alice Smith of Denver, Col., Miss Lena Buell of Baton, N. M., Miss Ethel Bargoeder of Connersville, Miss Sara Koenig of Knoxville, Iowa, Miss Dora Monk of Shelbyville, Dr. Hagan of Cincinnati, Cullen Sexton of Cincinnati university, Miss Mary Jane Carr of Indiana university, Gladys Wallace of Terre Haute Normal, Alaine Budd of Northwestern, Simeon Stewart of Purdue, Wallace Payne of Depauw. Among the new members taken into the club recently are Mr. and Mrs. Chase Mauzy and Dr. and Mrs. Carl Behr.

Mr. and Mrs. George C. Wyatt and daughter Miss Wanda returned last evening from a three week's visit in the south. After the close of the National Funeral Director's convention, they visited a number of places in Florida. At Orlando, Mr. and Mrs. Carey Hand gave them a cordial welcome and asked to be remembered to Rush county friends. The Rev. Thomas McConnell, former pastor of the Presbyterian church, resides there but they failed to see him. They went to St. Petersburg, Tampa, then by boat to Key West, but over the rough gulf, some of the pleasure was omitted. At Miami they were the guests of Mr. and Mrs. Gilbert Meredith and Mr. and Mrs. George Condon and they had not forgotten their northern hospitality, possibly increased by their southern environments, and nothing was left undone to make the stay there enjoyable. Mr. and Mrs. John Abercrombie are there for the winter. West Palm Beach is the home of Mrs. Anna (Overman) Suhr and a very pleasant visit was made with this family. At St. Augustine, the oldest town in the United States, they spent a very pleasant day sight-seeing, then back to Jacksonville for the start home. At Chattanooga, the Rev. Will Smith, pastor of the M. E. church there greeted them very cordially. But after all appeals of the "Sunny South," its churches, its fruits and its flowers, the good old Hoosier state and home is the best place on earth to them, they declare.

Two out-of-town members, Mrs. Walter Hall of Shelbyville and Mrs. Bruce Back of Anderson and one visiting guest, Miss Grace Ryon of Indianapolis, the house guest of Mrs. Charles Frank, were also among those who enjoyed the delightful afternoon. In the evening the husbands of the members were entertained with a progressive Rook party and dainty refreshments were served.

## Sensation Being Kissed by French Man Described

Aubrey VanSickle, son of William VanSickle of this city, who is with the American Expeditionary Forces, described in poetry the sensation of being kissed by a Frenchman, on landing in France, in a letter received by his father here. The poem follows:

Dear father, I write you from somewhere in France  
Where I am waiting with Pershing to lead the advance.  
There's little the censor permits me to tell  
Save the fact that I'm here and happy and well.

The French people cheered us as we marched from the ship  
At the close of a really remarkable trip.

They danced, they screamed and they shouted and ran  
And I blush as I write it, I was kissed by a man.

I've seen a great deal since I bid you good-bye;

I've witnessed air battles far up in the sky;

I've heard the loud roar from a long line of guns

And seen the destruction that's worked by the Huns.

Some scenes I'll remember and some I'll forget,

But the welcome he gave me—I'm feeling it yet.

Oh, try to imagine your son if you can

As he looked and he felt being kissed by a man.

Complimentary to her guest, Miss Sara Koenig of Knoxville, Iowa, Miss Marie Clark informally entertained a few friends yesterday afternoon at her home in North Sexton street. The social afternoon was spent in knitting after which the hostess served a dainty collation.

Mr. and Mrs. J. M. Brooks entertained a number of relatives Thursday at their home in West Fourth street with a family dinner. Mr. and Mrs. Charles Brooks, Mr. and Mrs. Horrie Brooks and Miss Fanny and Chase Brooks were the guests.

Mr. and Mrs. Sherman Andrews and Mr. and Mrs. Leslie Andrews and daughter Florence Ruth are the guests of Mr. and Mrs. Charles Andrews at their home northwest of this city.

The members of the Happy-Go-Lucky club will be entertained at noon next Wednesday by Mrs. Albert Winship at her home in North Main street.

## MEETS ITS FIRST DEFEAT OF YEAR

Rushville High School Basketball  
Team is Outclassed by Shel-  
byville on Home Floor

FINAL SCORE IS 24 TO 19

Inability to Hit Basket and Close  
Guarding by Opponents Re-  
sponsible For Defeat

Inability to hit the basket as well as the close guarding of their opponents was responsible for Rushville high school's first defeat of the season when they lost to the Shelbyville high school basketball team last night at the Graham Annex gym by the score of 24 to 19.

Rushville was clearly outclassed because Shelbyville has the best team—at least it was the best last night. While the local quintet missed many shots at the basket, they were always so closely guarded that if any of the baskets they missed had been caged, they would have been nothing short of "flukes."

John Keating, little forward on the Rushville five who generally leads in the number of field goals, "lost his eye," last night and contributed further to Shelbyville's victory. He couldn't hit the basket on free throws either, missing over half of his chances.

Shelbyville drew first blood when she chalked up one point on a foul goal as the result of a foul by Reed. The Rushville bunch was never in the lead, though threatening all the time because only a few points divided the two teams at all stages of the game. Shelbyville was never more than nine points ahead. That was when the score stood 19 to 9 after the beginning of the second half.

The first half ended with the score 15 to 6. It was well towards the middle of the last half before either team scored at all. For one brief space of time the local quintet hit its stride. They pulled off some clever passes, successfully eluding their guards and made three field goals in less time than it took the referee stopped the late rally by calling a foul on Shelbyville just the second before the last goal was caged. Then a Shelbyville player discovered that one of his shoe strings was untied and called for time. This served to steady the Shelbyville players and incidentally nipped Rushville's rally in the bud. Shelbyville has the fastest forward seen on the Rushville floor this season in the person of Winkler. He made eight field goals and two foul goals, thus contributing by far more than half of Shelbyville's score. Winkler always managed to be in the right place at the right time, and managed to make his field goals after successfully eluding the Rushville guard.

The Milroy high school second team defeated the Rushville high school second team in the curtain raiser, 12 to 9.

The largest crowd which has seen a basketball game this season was out and if good rooting contributed anything to the score, Rushville should have won hands down. The score:

Rushville (19) Shelbyville (24)  
Tompkins Winkler

Keating Forwards Chambers  
Dailey Center Marshall  
Reed Campbell, Coers  
Guards

Norris Black  
Field goals—for Rushville: Tompkins, 2; Keating, 3; Dailey, 2; for Shelbyville: Winkler, 8; Marshall, 1; Campbell, 2; foul goals—for Rushville: Keating, 5; for Shelbyville, Winkler, 2.

Referee, Smith.

## TO CO-ORDINATE WOMEN'S WORK

This is Purpose of Meeting to be  
Held Next Saturday by Coun-  
ty Council of Defense

### 12 CHAIRMAN TO BE NAMED

Plan Adopted so Women's Work  
May be Equally Divided Among  
Deserving Activities

The nation-wide movement to place all women's war activities indirectly under the leadership of the woman member of the County Council of Defense is to be taken up in Rush county soon. A meeting for this purpose will be held at 2 o'clock on Saturday of next week in the director's room of the People's National Bank when twelve chairmen of the twelve departments of war work will be appointed by a committee composed of women from every township in the county and working under the County Council of Defense.

This efficient method has been taken up by the leading women's organizations of the country in order that women's work may be equally divided between the deserving war activities.

The new system in no way curtails the work of the women of these organizations or do they lose their identity by working under the Council of Defense. The Woman's Committee of the Council of Defense is recognized as the official government agency through which all women's organizations may work out their programs and not repeat one another's accomplishments.

Five of the largest national organizations of women have asked their state presidents to get indirect relationship with the Chairman of the Woman's Council of the Council of Defense in their respective state, the state committees bringing it down to the county committees and the county committees bringing it to the township committees.

These five organizations are: National League for Women's Service, with Maude Wetmore as chairman; National Council of Women, with Mrs. Philip N. Moore as president; General Federation of Clubs, with Mrs. Josiah Evans Cowles as president; National Woman's Suffrage association, with Carrie Chapman Catt as president; National Society of Colonial Dames, with Mrs. Joseph R. Lamar as president.

Mrs. Anne Studebaker Carlyle of South Bend is the woman member of the Indiana Council of Defense. She has mapped out a war program which each county council is to carry out through its woman member. Twelve departments of work have been agreed upon so far and Mrs. Carlyle has asked the woman member of the council in each of the 92 counties in Indiana to name a chairman for each department within the next few weeks.

It happened that a woman's committee of war activities was named in Rush county before the County Council came into being. This committee was afterwards enlarged and taken over by the County Council of Defense and made a part of that council. As matters stand in this county, this committee is to have a voice in the selection of these chairmen and with that end in view a meeting of this committee is called for Saturday of next week.

The committee is composed of the following women: Mrs. Roland H. Hill of Ripley township, Mrs. Bert Benner of Center township, Mrs. Ed Aiken of Washington township, Mrs. Elmer Hutchinson of Posey township, Mrs. O. M. Siler of Jackson township, Mrs. Marcus Kendall of Union township, Mrs. A. P. Williams of Noble township, Mrs. William M. Sparks of Rushville township, Mrs. Jesse Gibson of Walker township, Mrs. Wilbur Brown of Center township, Mrs. Charles

## UNDECIDED ABOUT ORDER

Fuel Administrator Doesn't Know  
Whether Last One Was Accepted

S. L. Traube, county fuel administrator, was undecided today how much coal he would order for Rush county Monday for the reason that he had not yet been notified whether he would receive the ten cars ordered last Monday. The state fuel administration always sends the county administrator word whether his orders are accepted. In cases where they are not, he puts in the same order the following week. Of the ten cars ordered last Monday, six were for Rushville.

## AN ENROLLMENT AGENT IS NAMED

A. L. Stewart Appointed on Recommendation of the County Council of Defense

### ALL TYPES SERVICE NEEDED

His Duties Are to Enroll All Adult Men Who For Patriotic Reasons are Willing to Work

A. L. Stewart has been made head enrollment agent of the United States Public Service Reserve in this county, through the recommendation of the County Council of Defense. Mr. Stewart will begin his duties in two or three weeks, just as soon as an office can be opened and the necessary supplies are received for the purpose of enrollment. The duties of the head enrollment agent and the purpose of the reserve is as follows:

First: To enroll as members of the reserve all classes of adult men, who, for patriotic reasons, are willing to accept employment, engage in additional employment or change from their present occupation to other employment, which would be of more importance to the national welfare; men who are now employed in work which is not of vital importance to the national welfare; also men who are only partially employed and whose financial condition makes it unnecessary for them to earn a livelihood. His duties are further to present to members of the reserve for employment which are vital to the national welfare and in exceptional cases where men are financially able to make them be of service to the national welfare, and in certain cases their services will probably be without compensation.

All types of service are needed. It is desired that all men who are able to give service in any capacity, should enroll, scientific and professional men, mechanical, electrical, civil, sanitary, chemical and all other engineers, executives, administrators, superintendents and foremen, draftsmen, mechanics, accountants, clerks, estimators, agriculturists, laborers and all others should enroll.

All parties enrolling will be furnished an application form and when the application form is filled out it will be necessary to see that it is complete in every respect. It is also desirable that each person enrolling shall make a voluntary contribution of twenty-five cents and he will be issued a receipt therefor. This money will be for the purpose of furnishing the party registering a reserve button and to defray the costs of supplies, clerical help and etc., incident to the administration of the reserve in Washington. The contribution is voluntary and may be waived by any person enrolling.

It is stated emphatically that a man who does not need to earn a living can't make it a valid excuse for not working at this time, and it is also to be made clear that consuming time without real productive results, is not work and that the nation is in need of productive workers. It is also understood that the work throughout the country will often be hard and perhaps of a humble sort, but the productive work of the country must be increased if our soldiers are to be adequately supplied with the necessities of warfare.

It is also understood that all of this work in the enrollment of the adult men of the county is to be done free and without compensation, and for that reason each and every one is urged to be patriotic enough to search out the enrolling agent for his district without the enrolling agent being compelled to go to him.

The infant child of Mr. and Mrs.

## MAKES IT EASY TO BE A BOND HOLDER

Government Starts Thrift Plan Monday to Get Savings of Small Investors

### AN OUTLINE OF THE SCHEME

War Savings Certificates Are Issued, Bearing 4 Per Cent Compound Interest

Beginning on Monday, one can open the way to become a "bloated bondholder" by the investment of but twenty-five cents.

This is because of the Thrift Stamp plan, which Uncle Sam is putting in effect through the post-office throughout the country. The stamps have been received at the local postoffice where everything is in readiness for the execution of the new savings plan which has been instituted for two reasons; that the government may be using the money and in order that those who could not afford to purchase Liberty Loan bonds can buy bonds in this way.

The plan is very simple. A war thrift stamp can be purchased for twenty-five cents. With it is given a card, non-transferable, on which is written the name and address of the owner. Just as frequently as the owner wishes he may purchase the twenty-five cent stamps and have them stuck on the card. When the card is filled with sixteen stamps, or four dollars in savings, it may be presented with twelve cents to the postoffice where a war-savings certificate bearing four per cent interest that is compounded quarterly is issued. In other words it is a five dollar government bond. It is even more profitable than a Liberty Bond inasmuch as the interest is compounded on the one and not on the other. The thrift certificates are payable in 1923 or at any postoffice at any time with accrued interest up to the hour of demand.

Or, the war saving certificates may be brought in another way. One can purchase a \$4.12 war certificate or as many of them up to this ratio as he desire up to one hundred dollars worth. He can not buy more than one hundred dollars worth at one time or own more than one thousand dollars worth at one time. During the months of December 1917 and January 1918, the price of the certificates shall be \$4.12 and one cent shall be added every month thereafter during the calendar year of 1918. Thus the sum necessary to add to a card filled with 16 thrift stamps to obtain a certificate in December 1918, will be 23 cents. Rural and city carriers will sell the stamps and be supplied by the postmaster.

The government in this way is giving every man, woman and child in the country an opportunity to aid in financing the war. It is proposed to sell during the calendar year 1918 the amount of \$2,000,000,000 of these bonds par value.

## BOY SHOT WHILE HUNTING

Carl Hewitt Accidentally Hurt by Playmate, Blount Hungerford

Carl Hewitt, the 15-year-old son of Mr. and Mrs. F. M. Hewitt of the Big Flatrock neighborhood in Orange township, was accidentally shot below the knee on Thursday by Blount Hungerford the 13-year-old son of Mr. and Mrs. Elbert Hungerford with whom he was hunting. The Hungerford boy was endeavoring to unload his gun, a .22 rifle, and in some manner it went off, the shot going into young Hewitt's leg immediately below the knee. The injuries incurred by the accident have been very painful although they are not considered serious.

## BERLIN CLAIMS GAINS AND 4,000 PRISONERS

Marshal Haig's Statement Indicates  
Fighting Referred to May Have  
Been Yesterday

### CAMBRAI BATTLE CONTINUES

Germany today claimed great gains and 4,000 prisoners in powerful thrusts against the British line around Cambrai and recapture of two villages on the southern flank. Field Marshal Haig said the enemy had not attempted to renew his attacks since last night, indicating that the fighting described by the Berlin statement may have occurred yesterday.

Dispatches from the British front detailed failure of a double blow aimed by the Germans against the Cambrai line and declared the battle was continuing on a nine-mile front.

At one time the Germans forced the British back two miles. Tanks were called into action by General Byng. As the dispatch was cabled German advance does not stand at more than 2,500 yards. They were thrown back from their furthestmost gains with heavy losses.

Five German divisions, about 50,000 men were thrown against the British line in the attack. These divisions entered their attack along a five-mile front. That their first day's effort failed was due to the Spartan courage of the British Tommy who contested every inch of ground.

## PROMISES TO HELP ROUMANIAN NATION

President Wilson Also Sends Message to Japanese, Referring to Count Ishii's Visit

### WATCH ROUMANIAN STRUGGLE

(By United Press.)

Washington, Dec. 1.—To encourage Roumania, now in a difficult position because of the Russian tangle, President Wilson today messaged the Roumanian premier, promising American support both at the peace table and after the war.

At the same time President Wilson sent to the Japanese government a message declaring the result of Count Ishii's visit would be "as happy and as permanent as the enduring friendship of the people of the United States and Japan."

"The people of the United States," said President Wilson, "have watched with feelings of warmest sympathy and admiration the courageous struggle of your majesty and the people of Roumania to preserve from the domination of German militarism their national integrity and freedom. The government of the United States is determined to continue to assist Russia."

## WRITES OF SAFE ARRIVAL IN FRANCE

Ray Colestock, in Rainbow Division, Says he Has Pleasant Trip Over to France

### A LETTER TO HIS MOTHER

Men Are Fed Well, he Says, But he is Hungry all The Time—No Danger Sighted on Trip

Mrs. Nora Colestock is in receipt of a letter from her son, Raymond Lee Colestock, Battery A, 150th Field Artillery, (Rainbow division) telling of his safe arrival in France and describing his trip, though many details are omitted, the censor evidently having been on the job.

The letter arrived on the day the announcement was made from Washington and the American Field Headquarters in France that the Rainbow division had arrived in France. Dispatches say they have been there for some time. The 150th regiment of field artillery is a part of the rainbow division and was formerly the 1st Indiana artillery. It was divided today that this division embarked October 18.

Colestock enlisted in Company B of the old Fourth Indiana here and was one of the men transferred to the artillery before it became a unit in the Rainbow division. The letter follows:

Dearest Mother:

Have arrived safe and sound and in the best of health and I sincerely hope you haven't worried yourself sick since I left. I sent you a card and hope you received it for if you didn't, I know that you imagined everything happened to me. I was on duty the night before we left so didn't have a chance to do anything much only grab my pack on the run and fall in line. I can't tell you anything much because all of our mail is censored. About all we can say now is that we are well and alive. The trip was a pleasant one. We did not have a single storm and only a few cloudy days and I wasn't sick a moment. The sea air is great and it sure gives a fellow an appetite. We have been fed well, but it seems that I am hungry all of the time. I hope you will send plenty of eats if you send me a box for Christmas. Candy, cakes and chewing gum would certainly be appreciated. If you can, make me some maple sugar and send it.

We were all happy to see land even if it was strange, for the water got to be an old thing. I don't think any dangers were sighted on our way. The time passes quickly but it seems an age since I was at home on the farm. I wish you all a happy Thanksgiving, as you may not receive this until after then. I hope to be able to send you all something Christmas, but don't know whether I will be get to or not. I don't know where I am or where I will be, but of course I would not be permitted to tell if I did know. I would hate to tell anything that would get to the enemy and give them valuable information as I am trying my best to keep within the limits and when I come back I can tell you all about it.

All of us were insured with the government just before we left. A law was passed a short time ago requiring that all of us take out five thousand dollars insurance with the government, but the most of us took ten. It costs according to our age, mine costing 65c per thousand, or

## PLAN TO CLOSE SCHOOLS

Fuel Administration Considers it as Coal Conservation Measure.

(By United Press.)  
Washington, Dec. 1.—A plan to close all schools in northern and central states during January and February as a coal conservation measure is before the fuel administration today. The closing of schools has been merely suggested and is not imminent, it was stated, but one official in explaining the serious situation, declared there simply is not enough coal being moved to meet all requirements. The recess in January and February would be made up by an extension of the school term.

## HOSPITAL UNIT TO LEAVE

# HOOSIER KITCHEN CABINETS

Hinged Door "Hoosier Wonder," Advertised in leading Magazines

Although the prices of nearly everything has gone up since the war, it is a remarkable fact that the price of the famous Hoosier Beauty remains exactly the same.

It is the only kitchen cabinet we know of on the market today that has not been advanced \$2.00 or \$3.00.

The reason for this is that there are more Hoosiers made than any other five makes combined. Hoosier production is larger and buying facilities greater. With the exception of the slight rise in price of one or two of the lower priced cabinets, all prices are exactly the same as usual.

That is why it is hard for you to get Hoosier Cabinets—last spring and summer hundreds of women waited months to get the popular Hoosier models.

Whether you intend to buy now or later, come and see the labor saving cabinets.

SPECIAL LOW PRICES —\$21, \$26, \$31, and \$35.

They are sure to be higher.

## FIGHT FOR YOUR LIFE

### Duty Demands Robust Health

#### Fight to get it and keep it

Fight—fight day in and day out to prevent being overtaken by ill and ails. Keep wrinkles from marring the cheek and the body from losing its youthful appearance and buoyancy. Fight when ill-health is coming with its pallor and pains, defects and declining powers. Fight to stay its course and drive it off.

But fight intelligently. Don't fight without weapons that can win the day for without the intelligent use of effective weapons the pallor spreads and weakness grows and a seemingly strong man or woman oftentimes becomes a prey to ill after all.

You will not find this class of persons in the hypoferrin ranks. No unhealthy, dull, draggy, droopy persons in that line. It is a hale, hearty, robust aggregation of quick-steppers who view life in a joyous frame of mind and are mentally and physically equal to any emergency. Hypoferrin stands for sound body and sound mind—it is the invigorating tonic of the times—powerful and unsurpassed as a health restorer, vitalizer and health preserver. Fight to hold the vigor of a sound body with hypoferrin or to stay the process of decay and restore health and strength—you win. This tonic of amazing, wonder-working properties has been approved by physicians as a restorer and safeguard of health. It is a thoroughly scientific preparation of the very elements necessary to tone up the stomach and nerves, to build strong, vital tissue, make pure blood, firm flesh and solid, active, tireless muscles.

Hypoferrin contains these mighty strength-producing agents, lecithin and iron peptonate, in a form best adapted to benefit the body and its organs. Its ingredients are absolutely necessary to the blood. In nine cases out of ten a run-down condition, pallor, pale complexion that "all in" feeling and frail bodies are due to lack of lecithin and iron peptonate in the system.

Your mental and physical strength and endurance depend upon a healthy and iron peptonate laden blood steadily circulating through the body. A healthy blood with these you can meet life at any angle.

This wonder tonic, hypoferrin, which is as perfect as science can get to nature, makes every essential demand of the human organism. It is safe and sure and a boon to run-down, worn-out men and women. Hypoferrin means nature's sure way of bringing color to the cheeks, strength to the body and keeping the vigor and buoyancy of youth. The power and point way of effecting beauty and health is by hypoferrin. It is the tonic for girls. Their blood, filled with nature's beauty stores, creates conditions that give firmness and grace to the body and the glow of health to the cheeks.

No need of going through life sickly and always feeling miserable in this age of medical science. Join the hypoferrin ranks. It puts into you the spring and vigor you ought to have. It gives life to your body and mind that insures the confidence that you cannot be worn out or an equal feeling with anyone. Hypoferrin may be had for \$1.00 per bottle. It is well worth the price. ### Teach Practical Patriotism

In seeking for an explanation for the apathy and lack of patriotism manifested in many parts of the country, one is confronted in almost every instance with the one underlying influence—ignorance. Ignorance of American ideals, traditions and principles. Ignorance of the plain duty of every citizen of a beneficent government to preserve and defend the institutions of that government.

In the schools of this country from this time on, a department of practical patriotism should have foremost place. Love of country is not all hereditary. A practical knowledge of all that our country and our government stands for in the lives of its citizens is essential to the development of the highest type of patriotic citizenship.

It is not enough that a people should have a sentimental love for the soil that bred them. Thousands of aliens within our borders; now loyal citizens of our country, have this love. It is noticeable, however, that this does not detract from their full allegiance to the government that has received and nurtured them.

There must be more than this to make up the true American type. There must be first knowledge—a full realization of the superiority of our institutions; a full appreciation of the great benefits that we as individuals have received and are continually receiving from them. Add to this a carefully cultivated sense of gratitude, and the country will be safe in the hands of its citizens.

In past years much has been said of the privileges of our land. The time has come when we must emphasize the duties of the people to the government that makes possible those great privileges.

Teachers and parents of America, it is up to you.

### How Teachers May Help

Teachers in the public schools of a certain city in this country have set a precedent that might be followed generally. They have unanimously agreed to contribute their services for one month of the present term free, in order to lengthen the term.

This is in a state where the public funds are not sufficient to warrant the desired length of school term, and there are many states where in the concession would not be necessary. Still the concession would be a splendid display of patriotism, even there.

The school teachers of our country stand in the most responsible position in public life. They are very close to the young and growing mind of the youth, and their attitude on any question of the hour is sure to have a profound influence in shaping the views of those under their charge. If they display the proper degree of patriotism and loyalty, their influence will be a steady and powerful one in the country.

# The Kaiser's Secret Army In America

While American manhood takes up the challenge of the Kaiser's armed forces on the seas and fields of Europe, the very sources of its support in this country are menaced by furtive, non-uniformed armies whose weapons are spying, sabotage, bomb-planting, incendiarism, murder, and a hundred forms of insidious and demoralizing propaganda.

What are we going to do about it? The leading article in THE LITERARY DIGEST for December 1st, will give one a clear idea as to what is being done and what it is proposed to do. It presents the facts from many angles and reflects the feeling of the American people on the subject, through the editorial comments of leading publications. Various remedies are suggested—an ominous undertone being evidenced in the statement of the New York Morning Telegraph, which says, "In our judgment these outrages will continue until some spy is caught, convicted, and shot."

nation's war activities, where the same is not needed by the schools, in order to secure a full term, they would set before our young people an example that could not fail to bear great and lasting fruit.

German statesmen denounce President Wilson as an autocrat, and attempt to favorably compare their government with this; on the ground that they "have the king's pledge that the general, direct, equal and secret ballot, the most liberal electoral franchise in the world, will now become an institution in Prussia." All very fine and high-sounding, but we might remind our Teuton critics that this same "general, direct, equal and secret ballot," has always prevailed in this country, and it is solidly and unanimously behind our president. Those German statesmen might enlighten the world by stating to just what extent the masses of that unhappy country have participated in governmental affairs in the past and do participate at present. As for the future participation of those masses, it may be in a manner not at all to the liking of the Prussian statesman.

As conspicuous examples of German "kultur," we might mention those two million illegitimate German children, brought into the world by decree of the Kaiser. We might also cite recent air attacks on allied hospital bases, on school houses in England, and the latest German worthy attempt to reduce the enemy population by dropping poisoned
